PROFESSIONAL OBJECTIVE

Motivated B.Tech IT student with strong interest in software and machine learning development. Seeking an internship or entry-level position in AI, ML, or backend development to apply technical skills and contribute to innovative real-world projects.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology – Pillai College of Engineering, New Panvel
CGPA: 7.5 | Expected Graduation: 2027

TECHNICAL SKILLS

Machine Learning & Data Science: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Data Preprocessing, Feature Engineering, Random Forest

Programming Languages: Python, Java, JavaScript, HTML, CSS

Web Development: Streamlit, Bootstrap, Responsive Design, UI/UX Fundamentals

Databases & Tools: SQLite, Git, GitHub, Google Sheets Integration

Soft Skills: Problem-Solving, Analytical Thinking, Team Collaboration, Communication

CERTIFICATIONS

- Introduction to Frontend Development – Simplilearn (Jan 2025)
- JavaScript Bootcamp – LetsUpgrade (Jan 2025)

PROJECTS

Crop Yield Predictor (Main Project)

Tech: Python, Streamlit, Scikit-learn, SQLite

Developed an ML web app that predicts crop yields using environmental data. Integrated Random Forest model, multilingual support, user authentication, and scenario comparison for agricultural insights.

Car Rental Website

Tech: HTML, CSS, JavaScript, Bootstrap

Created a responsive car rental website with booking functionality and clean UI design.

Personal Portfolio Website

Tech: HTML, CSS, JavaScript

Designed a portfolio to showcase skills, certifications, and projects with a modern layout.

Connect Agro for Farmers

Tech: HTML, CSS, JavaScript (Prototype)

Conceptual platform connecting farmers with buyers and providing agricultural resources.

ADDITIONAL INFORMATION

- Quick learner, adaptable to new technologies
- Strong interest in AI, ML, and backend development
- Passionate about building impactful, data-driven applications
